During the year plans have been made, with the assistance of the State Library staff to move the Library downstairs in the Academy building. In order to do this, it will be necessary to make some repairs to the building, paint and rewire the room and build new shelving. The Trustees have set up a fund for this purpose. We have had local contributions of \$65.00 and \$350.00 from Mrs. Alice R. T. Rabell, for a total of \$415. This, with the \$300 voted at last Town Meeting, should enable us to start the work this Spring.

During a terrific storm of last winter every one of the 2" metal frame posts of the ball field back stop were broken square off and the great structure lay flat on the ground with the netting damaged. Fortunately the restoration was not nearly as costly as feared. Mr. Hammond generously refused to accept payment for timber braces and Henry Gould very efficiently helped set it up.

No progress was made in replacing shrubbery which has died or been mutilated. Well stocked nurseries are so far away that trucking is very expensive and our sources of supply did not cooperate as was expected of them.

RALPH T. BARNEY,
Park Commissioner

CANAAN STREET PARK

No Park Commissioner for this area in recent years has meant that work was confined to mowing the hay. As soon as the snow melted this year Robert Brayman earned \$21.25 supervising volunteers in leveling the overgrown shrubs at the three points of the triangle and removing the cedars that threatened to make entrance to the Town Hall difficult. The shrubs sprang up again from their extensive root systems and by another year will be high enough to need regular selective cutting to maintain their vigor and beauty.

Lawrence Talbert, Ralph Coutermarsh and Earle White collected \$13.13 between them for mowing and spreading \$33.30 worth of fertilizer which should improve the scraggly grass to the point where it can be cut regularly next summer and be a lawn of which the town can be proud.

The Selectmen advanced me \$100 of which I have spent \$67.68 as detailed above, and have \$32.32 left to begin next year's work. On behalf of the town I would like to thank the many people whose volunteer labor and machinery far exceed in value the money spent by the town.

Respectfully submitted,

Prevention is Everybody's Business

The year 1959 was fortunate from a forest fire standpoint. New Hampshire had the best record in the nation. Fewer acres were burned, suppression costs were substantially reduced and damage to woodlands held to a minimum. The record resulted from a combination of favorable weather conditions, an alert warden service and a cooperating public.

Yet, despite all this, there still persists a disturbing note:

58%, or 6 out of every 10 fires in 1959 were caused by careless smokers and debris burners.

10%, or 1 out of every 9 fires was caused by children.

Careless, indifferent, thoughtless and independent minded individuals and failure of parents to properly supervise children and keep matches out of their reach, annually cause these unnecessary fires which cost large sums to extinguish and cause extensive damage. The elimination of these three causes of fires would radically change this picture. The rules are simple—

1. Before burning, secure a permit from your local forest fire warden—the law requires it.
2. Be sure to properly supervise your burning.
3. Make certain your fire is DEAD OUT before leaving it.
4. Don't throw lighted matches, cigars and cigarettes from moving vehicles—use your ash tray.
5. Don't burn at home—Use your town dump and save yourself much possible difficulty, both personal and financial.

Number of local fires—2

Number of acres burned—3.75

Number of permits issued—131

LEBANON TUITION STUDENTS

On August 26, 1959, just before the opening of school, House Bill 77 was passed setting up two kinds of secondary schools. Those offering a basic or academic course were defined as "high schools;" those offering a basic course plus the fine arts and industrial arts courses prescribed by the minimum standards of the State Board of Education were classed as "comprehensive" high schools.

Canaan high school was classed as a basic "high school," and under the new law students wishing to attend a comprehensive high school to take courses not

offered in their own school could do so and the town would be liable for their tuition.

Thirteen Canaan students attended Lebanon high school under this law during the school year 1959-60. They were:

SUPERINTENDENT'S REPORT

In the 1957 report I made the following statement in part: "It is my opinion—that the **cheapest** and **best** education possible will be made available to its high school pupils by sending them to Lebanon on a tuition basis with some hope existing for a future cooperative school." Nothing has taken place since that time to make any change in that opinion. A new law has since been passed which will permit small high schools to remain in existence for a long time. A quick check of the per pupil costs of the smaller schools will show costs running well over \$425.00 per pupil and some higher such as: Alstead \$471; Colebrook \$529; Jaffrey \$521; Sunapee \$552; Bethlehem \$769.

Much is being written nationally by men like Dr. Conant and Admiral Rickover about the need of quality education. There are many opinions about how this should be done but it is generally agreed that we are going to need more quality in education than we have had in the past. The best education possible will be none too good for the welfare of the people and the world leadership which must be maintained by our country.

Salaries

The average high school teacher's salary for the current year in this state is \$4,593; Canaan's is \$3,550. At the elementary level the corresponding figures are: State average \$4,200; Canaan's \$3,510. The average increase over last year for the state is \$205.

Respectfully submitted,

C. MAURICE GRAY,

Superintendent
